NOTRE DAME. Situated 2 miles north of South Bend, on M. S. R. R., in St. Joseph county, has no village population, but is the location of the best known edueational institution in the West, namely, the University of Notre Dame for males, and St. Mary's Academy for females. The University of Notre Dame was founded in 1842, by the congregation of the Holy Cross, under the direction of the Very Rev. E. Sorin, and was chartered by the Legislature of the State of Indiana in 1842, with full power to confer all usual degrees, and now conducted by the President, Rev. Thomas E. Walsh, C. S. C. On April 23d, 1879, the University was destroyed by fire. The present building which was creeted the same year that it was destroyed, is modern gothic, 224 feet front and 155 deep, with a projection or wing on each side directly connected with the main building, making a total frontage of 320 The height of the main building from the ground to the pedestal on statute above the dome is 170 feet. Its facilities for education are briefly stated, being cal-

culated to form both the heart in intellect of its students. The St. Mary's Academy, under direction of the Sisters of the Holy Cross, is the best disciplined and most thorough institution of its class in the United States. The building, of brick, with stone dressing, is spacious and com-modious, and one of the best constructed for educational purposes in the country. Situated on St. Joseph's river and surrounded by eighty acres of land laid out in fine pleasure grounds, make it at once attractive and healthful. The popularity of the institution is shown by its patronage, as its list of pupils includes females from nearly every State in the Union. The proximity of Notre Dame and St. Mary's is a great convenience to parents having children at both institutions, as a visit to each can be made at the same time. The University has W. U. Tel., and Am. and U. S. Ex. offices in the building. Mail daily. Sorin, postmaster. Granger A Very Rev, (Catholic).

PERU. The county seat of Miami county, is pleasantly located on the Wabash river, 75 miles from Indianapolis, 143 from Chicago, and 56 from Fort Wayne; it is at junction of L, P. & C. Div., with main line of the W., St. L. & P. R'y, and is one of the most important manufacturing towns of its size in northern Indiana. Peru was settled in 1832, and is now a flourishing incorporated city of 7,000 inhabitants; it has a bonded debt of \$153,000, has good county buildings, substantial business blocks, many handsome residences, is lighted by gas, has good water works, a well equipped fire department, telephone exchange, and a handsome new opera house; in point of manufacture Peru is fully up to the standard, having 2 foundries, I sewing machine cabinet factory, 2 saw mills, I flax bagging factory, 3 flour mills, 1 plow factory, large woolen mill, 2 breweries, I planing mill, I brickyard, and 1 cooper shop; prominent among the above mentioned are the establishments of B. F. Dow, manufacturer of engines and boilers, Thomas F. Lovatt, plow manufacturer, M. F. Smith, manufacturer of all kinds of architectural and jail iron work, and the planing mill of Daniel Wilkinson; the city supports 6 hotels, 2 national banks,

and 2 weekly newspapers-Republican and Miami County Sentinel. Its educational and religious advantages are excellent, numbering several good school buildings and a number of handsome church edifices. Peru has much private wealth, its citizens are industrious, enterprising and liberal, and any legitimate enterprise will find here unusual natural advantages and will receive a hearty welcome and support; it has U. S. and Pacific Ex., and W.U.Tel. offices. Ira B. Myers, postmaster. Alford Marvin P, feed yard. Andres Henry, grocer and saloon. Andres William, grocer. Andrews Lyman N, agt W, St L & P R'y. Div. of the P., C. & St. L. R. R., and is traversed by main line of the last mentioned road. It is distant from Cincinnati, 70; Indianapolis, 69; Dayton, 41; Columbus, O., 120; Fort Wayne, 92; and Chicago, 224 miles. The Union Depot is very commodious, and is used by all roads as a pasextensive trade from the very fertile agricultural district by which it is surrounded, and has no less than 13 good gravel roads reaching to the uttermost corners of the county. The city is very compactly built, its business houses are principally of brick, and of a very substantial character. It has good county buildings, handsome residences, wide streets, well lighted by gas, and traversed by street railway, telephone exchange, and a paid fire department, consisting of 2 steamers with hose carriages, a hook and ladder company, and well equipped with all mod-ern improvements. The city has most excellent religious and educational facilities. Its public schools are unexcelled, employing 55 teachers, who furnish instruction to nearly 3,700 pupils. These, with several private schools, a telegraph institution and the Earlham College, constitute the list of educational institutions. There are in all 26 church edifices, representing nearly all the popular religious denominations. The Morrison Library, comprising over 10,000 volumes donated by the late Robert Morrison and the Wayne county Library Association, with 2,500 volumes comprise the literary facilities of the city. Its charitable institutions include the Orphans' Home, Home for Friendless Women and the Wernley Orphans' Home. Richmond has a population of 16,000, carries a bonded debt of \$43,000 has real and personal property (assessed value) amounting to over 8,000,000, and supports 4 banks—1 prvate, and 3 national-several hotels, 2 theaters

MOON & NICKERSON'S

MAPAND CHART CASE

PARTLY OPEN.

We call the attention of TRUSTEES and other SCHOOL OFFICERS to the fact that a good and efficient Apparatus for

Preserving Map Charts, Etc., in the School Room,

Has at last been provided. That the cumbersome methods of ROLLING and UNROLLING Maps and Charts for exhibition, and the useless expenditure of time in referring to the different Maps have been disposed of by the simple invention represented by the above cut.

The back frame is securely fastened to the wall of the SCHOOL ROOM OR OFFICE by means of Malleable Iron Lugs securely fastened to back frame, and Steel Wire Nails driven in the wall.

The front frame and leaves are hinged to a common centre, and are pivoted or hinged to the rear stationary frame. The Case then opens LIKE A LARGE BOOK, with one back nailed to the wall.

MAPS, CHARTS,

Or any other engraved or printed matter, may be pasted upon the surfaces of these leaves, which are made of Three-Ply Wood Veneers, Glued together, with Centre Veneer Transverse the two Outside Veneers.

Patented June 8, 1880; January 11, 1881, and November 8, 1881.

ROCHESTER. This enterprising, growing town of 2,700 inhabitants, the county seat of Fulton county, is located at crossing of the C. & A. and I., P. & C. Div. W., St. L. & P. R'ys, 98 miles north of Indianapolis, and 63 south of Michigan City. It was settled in 1830, incorporated as a town in 1855, and is now a handsome place, containing good business blocks, handsome residences, excellent public schools, 7 fine church edifices, one of the finest theaters in the State—seating capacity 1,000-1 bank and 3 hotels. weekly newspapers—Sentinel and Republi-can—are sustained. One of the most im-portant features of Rochester is the famous Lake Manitau, distant 1½ miles from the town. A landing, known as Manitau Landing, has been established as a resort, which has now gained a considerable notoriety. The lake comprises 2,500 acres, and is 3½ miles long by ½ wide. Fishing and hunting parties find this one of the most pleasant resorts in Indiana. An elegant steamer is at the service of all. A dining hall has been recently established. The landing is conducted by Mr. M. S. Killen, who has made it both attractive and comfortable. Rochester has the following manufactories: 3 foundries, 2 flour mills, 2 cooper shops, 1 woolen mill, 2 planing mills, I saw mill and a lime kiln. Flour, grain and live stock are extensively shipped. This place needs more manufacturing establishments. It is surrounded by a good grain district, and since the completion of the new railroad offers special inducements to manufacturers. Ex., U. S. lake and the G., R. & I. R. R. in Orange township, Noble county, 8 miles northeast of Albion, the county seat and banking town. The most prominent feature of Rome City is the lake, a handsome body of water dotted with islands and surrounded by pic-turesque scenery. The largest of the islands known, Island Park, is owned by the Island Park Assembly, it is provided with pavillions, restaurant, fountains, and a good hotel, the Island Park House, and is one of the most handsome and pleasant camp-meeting grounds in the State. The lake abounds in fish, and as a boating place has no equal. Messrs. Owen & Swinehart have a fleet of 50 boats, including clinker, family and fishing, which are hired at reasonable rates. The town is rapidly improving and contains 2 hotels, 1 saw mill, 1 flour mill, Methodist and Baptist churches and a good graded school. Ex., Adams, and U.S. Tel., W. U. George W. Clark, postmaster. SHELBYVILLE. The seat of justice for Shelby county, is a flourishing incorporated city of 4,000 inhabitants, pleasantly located on the Big Blue river, in one of the most fertile and productive agricultural districts in the State. Shelbyville, for her size, is not excelled by any other town in the State for commerce, activity, beauty and municipal government. Having no bonded debt whatever, she can boast of real and personal property (assessed value) amounting to \$1,730,752. The city has excellent county buildings, substantial business blocks, handsome residences, is lighted by gas, and has an excellent volunteer fire department. It is located at crossing of (Rushville branch) J., M. & I. and C., I. St. L. & C. R. R's, 27 miles southeast of Indianapolis, and 84 northwest of Cincinnati. There are located here Methodist, Baptist, Catholic, Christian and Presbyterian churches, a most excellent high school, an opera house, 2 banks, 4 hotels, 3 saw mills, 2 flour mills, 2 planing mills, a stave factory, distillery, furniture factory, tannery, carriage factory, and I machine shop. The press is represented by 3 newspapers-Volunteer, published weekly, Democrat, and are published, both daily and weekly. Grain

and live stock are the chief exports. Ex., Am. and Adams. Tel., W. U. Daily mail.

SOUTH BEND. The county seat of St. Joseph county, is the most important manufacturing city of its size in the State. It is pleasantly located on the St. Joseph river, 85 miles east of Chicago, and 160 north of Indianapolis. Its railroads comprise the C. & G. T., L. S. & M. S., and the M. C. There is no town in Indiana that evidences as much thrift and enterprise as this city. Owing to the splendid water power and excellent transportation, this location has been chosen for some of the largest manufacturing establishments in the State. The principal manufactories now comprise 3 flour mills, 2 plow factories, 5 planing mills, 1 tile factory, 2 foundries, 1 iron fence factory, 2 woolen mills, edge tool works, 1 tinware factory, 1 brewery, 1 grain drill factory, 2 paper mills, a sewing ma-chine wood work factory, malleable iron works,1 clover separator factory,1 pulp mill 3 furniture factories,1 cooper shop,1 bracket

factory, 1 cement and sewer pipe factory, 2 boiler works, drill factory, 2 pump factories, and several wagon factories. One of the latter is the largest establishment of its kind in the west. The increase in population here has been very rapid since 1870. The difference between the census of that year and of 1880 showed an increase of over 100 per cent. The 1880 census placed the population at 13,324, which will now reach at least 16,000. The city is hand-some in appearance, is compactly built, has excellent public buildings, good water works, a well equipped fire department, and is lighted by gas. Its educational facilities are unsurpassed by any city in the West, for in addition to its excellent graded and high schools, and the St. Joseph's Academy, it has all the advantages derived from the Notre Dame University and the St. Mary's Academy, which are located 2 miles north of the city at Notre Dame. These institutions are too well known to need any description, and their reputation as first class in-stitutions are beyond any controversy. The city carries a bonded debt of \$296,000, and contains several handsome churches, 2 theaters, 2 banks—2 national and 2 savings -a telephone exchange and 7 hotels, prom-, inent among the latter are the Oliver House St. James and Grand Central. These are all well conducted and afford most excellent accommodations. Its newspapers are the Evening Register, Times and Tribune, issued daily, and the Courier, Era, Journal, Register, Times and Tribune weekly publications. South Bend is destined to become a great manufacturing city, as it has great natural advantages and good transportation facili-Its citizens are industrious, energetic and liberal and any legitimate enterprise will receive a hearty welcome and support. TERRE HAUTE. The fourth city in population, and the third in importance and manufacture in the State, delightfully situated on the Wabash river, 102 miles north of Evansville, 73 west of Indianapolis and 167 east of St. Louis. It has had a very substantial and rapid growth within the last 30 years, as shown by the following table of population:

1870.....16,103

It is the county seat of Vigo county, and is one of the best built cities in the State. Surrounded as it is by the finest agricultural district in Indiana, and with a high location, makes it a remarkably healthy town, and as a residence city it is unexcelled.

TRANSPORTATION.

Terre Haute has most excellent transportation facilities, consisting of 6 roads, as follows: The St. L., V., T. H. & I. road, main line, and L. Div. has its general offices here and gives it direct connection east and west with all leading lines. The I. & St. L. road, which is another leading connection of the eastern trunk lines. It is the northern terminals. E. & T. H. and eastern of the C. & E. I. The I. M. and T. H.&S. E. roads have general offices here. It is the eastern terminus of first mentioned and western of last named. The location of these general offices adds greatly to its importance as a railroad centre as well as the wealth of the city.

MANUFACTURE.

In point of manufacture this city has made very rapid advances in the last few years, and it now numbers among its mills, factories, etc., some of the largest establishments in the west. The following is a list of the most prominent manufactured articles: Mill machinery, hubs and spokes, cigar boxes, brass goods, fertilizers, carriages, crackers, paper boxes, files, woolen goods, engines, boilers, castings, flour, hominy, overalls, sashes, doors and blinds, whisky, T rails, elevator buckets, copper goods, wagon material, barrels, bent wood; brick, spring beds, iron, nails, kegs, cars, beer, soap, pig iron, pumps, lumber, stoves, machinery, staves, furniture and heading. A portion of these goods find a market in all quarters of the United States, and have gained a reputation as being first class. There is no doubt but this city will, in the near future, be the most important manufacturing town in the State, as it is making rapid strides in that direction.

COMMERCE.

The wholesale trade of Terre Haute has increased greatly within the last few years, and her wholesale houses will now compare favorably with any in the State. Trade for the year 1881, and the first six months of 1882, show an almost phenomenal increase, and in this line the city may well be proud of its business houses, as their reputation for solidity, thrift and enter-prise is acknowledged by all. The whole-sale trade is confined more to Illinois than to Indiana, although it has a good jobbing trade in the latter.

NEWSPAPERS.

The press of Terre Haute has a very strong influence throughout this State and Illinois, and her newspapers, as a class, are fully up to the standard. There are published here, 2 daily, 1 tri-weekly, and 7 weekly papers, and 1 monthly review. The dailys are the Express and Gazette; weeklies, Saturday Evening Mail, Saturday Night, Banner-issued weekly and tri-week-

GENERAL FEATURES.

This city is modern in every respect, its public buildings are constructed of the best material, and are models of architectural beauty. Its churches are second to none in the State, and its educational facilities rank among the best in the State; for, in addition to 7 large ward school buildings, it has a good commercial college, the Indiana State Normal School, and the Rose Polytechnic Institute, the last named, is endowed with \$500,000 from the late Chauncey Rose. The city carries a bonded debt of \$179,000, has real and personal property (assessed value) amounting to \$13,696,000, excellent water works, a well-equipped and efficient fire department, several miles of street railway, a handsome opera house, 20 hotels, 6 banks-2 national, 3 private and 1 savings—a telephone exchange, and its broad handsome streets are well lighted by gas. It has excellent drainage, and is the healthiest city in Indiana as shown by its remarkably small mortality. The magnetic artesian here is the finest in the country, and the medicinal qualities of its waters are absolutely unexcelled by any in the United States. It has Adams and Am. Ex. and W. U. and M. U. Tel. offices. J. O. Jones, postmaster.

THE REMEDY WHICH HAS NO EQUAL

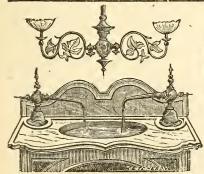

TRINKLE'S

Is a harmeless and certain cure for Chills and Fever. It is warranted free from arsenic or quinine, or any other drug that will harm the most delicate constitution, and is so safe and wholesome that it can be taken from the bottle, or the prescribed dose doubled two or three times with perfect safety, from the fact that it is the most pleasant Chill Remedy to take ever compounded, and is so reliable, never failing to cure chills if directions are followed. In sections where it is known it is used in preference to any other medicine.

A FAIR TRIAL IS ALL WE ASK TO PROVE TRINKLE'S AGUE TONIC TO BE HARMLESS,

And never failing to effect a cure. No trouble for children to take, as it is a pleasant medicine. It has succeeded where all other remedies entirely failed, breaking up chills and performing a complete cure. Bear in mind that Trinkle's Ague Tonic never fails to cure dumb or third day ague, and is perfectly harmless in the hands of children. Price, \$1.00. Manufactured by

HOPKINS IMPROVED SCALE CO.

The best Scale for the money on the market. Every Scale is warranted for FIVE YEARS. Agents wanted in every county in the United States. Address the above Company before buying any other Scale. Liberal discount to Agents.

Portable Scales.

FIRST: Our Scales have a Beam that radiates upon the top of the column which supports it. This enables the operator to adjust the Beam to light from any quarter of the house or room in which it is used.

SECOND: No time is lost trying to get such articles to stand alone in order to be properly weighed with this Scale, as it can be immediately leaned against the column. All the Scale surface, from the platform up, is weighing surface.

UNION CITY. The chief commercial and manufacturing town, in Randolph county, is a handsome place of 4,500 inhabitants, located on the Ohio State line, about midway between the Ohio and Indiana capitals, (each distant 85 miles), in a rich, productive agricultural district. It is distant from Winchester court house 11 miles. Union City was settled in 1854, incorporated a town in 1860, and has probably had the most rapid growth of any town in the State. It is the western terminus of the D. & U. R. R., and is traversed by the P., C. & St. L. and C., C., C. & I. R'ys. The town has a bonded and floating debt of 55,000, is lighted by gas and electricity, has good water, a fire department, 7 churches, high and graded schools, a good opera house, 4 hotels, 2 banks, and is compactly built, having good business blocks and handsome residences. Three weekly newspapers, the Times, Eagle and Plain Dealer, are published. Its manufactories are quite extensive, and comprise 3 saw mills, 1 stave factory, 2 brick yards, 4 flour mills, 1 furniture factory, 2 planing mills, 1 handle factory, 1 cooper shop, 2 hub and spoke factories, 1 flax mill, 1 butter tub factory, 1 tile vard, 1 foundry and a trunk slat factory. Grain, lumber, live stock and produce are the chief exports. Ex., Adams and U. S. Tel., W. U. Abraham B. Cooper, postmaster. Adam Adolphus, livery. Alexander & Worth, grain dealer.

WABASH. This important manufacturing city, the county seat of Wabash county, is situated on the Wabash river, in one of the most fertile agricultural regions to be found in the State, as bottom lands of the Wabash, Mississinewa, Eel and Salamonie rivers-which flow through the country-are widely known as being exceedingly rich and productive. The principal business blocks and county buildings are built of stone, quarried in the county, which is very excellent and extensively used throughout the State. The court house erected in 1879 is a model of architectural beauty, and standing as it does on the summit of a high hill, in the heart of the city, adds very much to its appearance. Its dome has a large electric light, which can be seen for miles. This city was probably the first one in the United States to try the experiment of lighting the streets by electricity, which has been demonstrated to be a success. The city is incorporated, and is located at crossing of W., St. L. & P. and C. W. & M. R'ys. The last mentiened have extensive machine shops here. It has several very handsome churches, good schools, 3 banks, and 4 hotels. Prominent among the latter is the new Lutz Hotel, which has the reputation of being first class in every respect. Two weekly newspapers—the Courier and Plain Dealer—are sustained. Wabash as a manufacturing town ranks among the foremost in the State, numbering among its mills, factories, etc., 2 saw mills, 2 foundries, 1 stave factory, 1 woolen mill, 1 school furniture factory, 1 woolen mill, 1 school furniture factory, 2 flour mills, 1 plow factory, 1 planing mill, 1 hub and spoke factory, 1 cooper shop, and 1 washing machine factory. WARSAW. Pleasantly situated on line of P., Ft. W. & C. and C., W. & M. R'ys, is the county seat of Kosciusko county, and contains a population of 3,500. It is a very prosperous incorporated city within sight of the Tippecanoe river, surrounded by an exceedingly rich agricultural district. It is a very pleasant summer resort, the chief attraction in that respect being 3 beautiful lakes, known as Pike, Eagle and Centre Lakes. A large number of pleasure seekers frequent the city every summer. The court house now under construction will be, when completed, a magnificent structure, and will compare favorably with any like building in the State; proposed cost, \$200,000. The city is lighted by gas, has many substantial business blocks, handsome residences, excellent schools, a public library, 5 churches—Baptist, Presbyterian, Catholic, Methodist and Christian-and 3 hotels, prominent among which are the Occidental and Wright House. Warsaw supports 2 banks, 1 daily and 3 weekly newspapers, the National Union and Republican are issued weekly, while the Northern Indianian is issued both daily and weekly. The principal manufactories are composed of 2 foundry and machine shops, I planing mill, a bung factory, 1 saw mill, 2 flour mills, 1 cooper shop, 1 bent wood factory, and a furniture factory. This city is noted for its healthy climate and surroundings, and is one of the most noted and pleasantly situated summer resorts in Northern Indiana. Ex., Adams and Am. Tel., W. U. John N. WASHINGTON. This flourishing city, the county seat of Daviess county, is located on the O. & M. R'y, 19 miles east of Vincennes, 136 southwest of Indianapolis, 168 west of Cincinnati, and

172 east of St. Louis. Washington was settled in 1817, and soon thereafter was made the county seat. It was incorporated a city in 1875, and is now a thrifty business place, containing excellent county buildings, good business blocks, 2 banks, 4 hotels, 7 churches, graded and high schools, 1 opera house, a good fire department, water works, and is lighted by gas. Two newspapers—Gazette (daily and weekly) and the Daviess County Democrat-are published here. The manufacturing industries of Washington are not very well developed as yet. It has now 4 flour mills, I cooper shop, 2 saw mills and 2 founderies. Coal of a very good quality is mined, and that, together with grain and live stock, form its chief exports. Population 4,000. The undersigned, manufacturer of Barrow Bros.' Little Giant Stump Puller and Lifting Jack, is prepared to fill orders on short notice.

The Little Giant Strimp Puller is a most powerful machine. Two men can pull more stumps in a day than four men and a team of horses with any other machine. All we ask is a fair trial to convince the most skeptical that what we say is true. The power can be applied to all kinds of lifting and pressing purposes, and can not be excelled as a cider press. Acts quickly and surely. Machines and territory for sale by

HOLYOKE ACADEMY,

Broadway, between First and Second Avenues,

LOUISVILLE, KY.

Boarding and Day School for Young Ladies

Chartered by the Legislature of Kentucky with full Collegiate Powers.

The Sixteenth Annual Session begins Monday, September 11, 1882, and ends June 8, 1883. The scheme of education is liberal, and as far as practicable, is arranged on the plan of the University of Virginia, a plan, in accordance with which, many of the institutions of higher culture in the United States have, in the last few years, remodeled their method of study. In the Collegiate Department there are seven schools. Each school being distinct, the pupil may, at her option, become a candidate for graduation in any one or all of them.

The Polytechnic Society of Kentucky has made arrangements for the \(\epsilon\) nnual delivery of a University Course of Lectures in the Natural Sciences before classes of the girls' schools of Louisville. These lectures will be illustrated by apparatus of the finest kind. The celebrated Troost Cabinet and Polytechnic Collection of Minerals will be used. This arrangement, together with the apparatus belonging to the school, enables us to offer advantages to students in the Department of Natural Science not surpassed by any school for young ladies in the United States. Particular attention is given to the study of French, German and Latin, with their relation to the English. Classes in Greek, Spanish and Italian are formed when desired.

ATTRACTIVE SCHOOL HOME.

We have a handsome building, delightfully located in the centre of the most beautiful portion of the city. Surrounded by palatial residences, with extensive grounds and abundant shade trees, the air is as pleasant and pure as in the country. The mansion, recently secured, was planned for a commodious private dwelling, with all the modern conveniences, and with its large saloon parlors, airy halls and rooms, is admirably adapted for a Select Boarding School. It is carpeted and handsomely furnished throughout, and all the appointments are in keeping with the general design of making this one of the most efficient and thoroughly excellent institutions in the West.

The number of boarding pupils being limited, we are enabled to offer the attractive feature of social intercourse under the guidance of the teachers. Receptions are held at stated times, and the young ladies of the Institution are expected in turn to assume the responsibility of hostess, to receive and entertain the invited guests. These entertainments consist of music, conversation and recitations. The refining and beneficial influence of these receptions have been proved by the increased ease and elegance of manner in our pupils.

The expenses of an elegant city home, first-class assistant teachers, prominent lecturers and other advantages of a school of this character, place it beyond our power to compete in prices with country and village schools. But we have made our terms as moderate as possible, and claim that the additional advantages offered more than compensate for the difference in price.

Terms, for Annual Session.

For Day Pupils, Tuition, according to Class, from \$50 to \$100. For Boarding Pupils, Board, Lights and Tuition in Lafin and English Course, \$300.

For Catalogue, containing full particulars, address

STANSBURY'S ELECTRO MAGNETIC DENTAL MALLET

· The inventor of this Mallet has aimed to perfect an instrument requiring no attention from the operator whatever, so far as its electrical parts are concerned. All parts are substantially made and accurately adjusted at the factory and covered with a rubber shell to protect them from dust and injury. The stroke is like that of a hammer, and not a vibratory stroke like all other mallets.

Any amount of hand pressure can be applied in forcing gold into the cavity, either while the mallet is working or not; no other mallet possesses this advantage.

THE SNOW AND LEWIS POINTS FIT IT.

The CHICAGO TELEGRAPH SUPPLY COMPANY, corner Market and Washington Sts , Chicago, Illinois, are sole manufacturers of this instrument and outfit, and for fine workmanship it can not be excelled.

The Mallet is put up in a fine Plush-Lined Box with ten points. The Battery consists of four Bunsen cells in black walnut box. For prices, complete outfit, etc., address the Manufacturers, or

Patent Solicitor and Inventors' Assistant,

94 South Delaware St., Indianapolis, Ind.

MODELS AND PATTERNS MADE. PNEW IDEAS PUT IN PRACTICAL SHAPE.

You have no doubt experienced the difficulty of getting mechanics who were not skilled in patent matters, and patent solicitors who were not skilled in mechanical matters, to understand your invention; and have, perhaps, had the misfortune to receive a patent in which the vital feature of your invention was left out. I have, in addition to a good knowledge of Patent Laws and modes of procedure in the Patent Office, A PRACTICAL MECHANICAL EXPERIENCE.

I carry on, in connection with my business of Patent Soliciting, a Pattern and Model Shop, where, with the aid of competent workmen and machinery, I can prepare your models, make your patterns and assist you to put your invention in practical working shape. The question of success or failure in a new invention often depends on having suitable patterns, and a good model.

AND ALL KINDS OF WAGON AND CARRIAGE MATERIAL, manufactured Bent Fellogs and sold by O. S. GILLETTE, 28 and 30 E. Georgia St., Indianapolis, Ind. See adv., page 6. C. Bradford

CORNER WASHINGTON AND MERIDIAN STREETS,

INDIANAPOLIS, IND.

Inventors who desire Patents that will successfully pass the ordeal of a suit for infringement, without the expense and trouble of a reissue, will find my method of doing business suited to their wants. Old Patents thoroughly examined, and opinions as to their scope and validity carefully prepared. All kinds of assignments and agreements relating to Patents drawn in accordance with the most approved practice. Rejected and forfeited cases taken up and prosecuted to final results, and business generally, relating to Patents, given prompt attention.

For all services only a reasonable compensation will be required, and clients can depend on full and honest opinions and advice regarding any matters concerning which they desire to be informed.

All Business Strictly Confidential. Call or Write for Terms. Reference Furnished if Desired.

COLWELL'S LYING-IN INSTITUTION

3012, 3014 and 3016 Calumet Avenue, CHICAGO, ILL.

TO DOCTORS AND THE PUBLIC.

Having spent years in public and private hospitals, I became aware of the great necessity for a PRIVATE LYING-IN HOME. Therefore I have erected this building for the especial purpose of protecting unfortunate women from publicity, where the greatest care and medical attention will be given at reasonable terms. Also, homes found for babies when desired. Parties of respectability wishing to adopt a fine babe, please correspond with me at office and residence.

B. L. COLWELL, M. D.,

3014 Calumet Avenue, CHICAGO.

P. S.—When desired, references will be given to physicians who have sent patients to my care.

ESTABLISHED 1856.

INSTRUCTION IN ASSAYING AND ANALYSIS A SPECIALTY.

THE CHICAGO MEDICAL COLLEGE

Medical Department of the North. University

Corner of Prairie Ave. and Twenty

CHICAGO, ILLINOIS.

This College adopted, at its organization, a graded course of instruction, and was the first in this country to classify its pupils according to time and progress in study, as is habitually done in literary

and other scientific institutions.

For this purpose, the several branches embraced in the curriculum are divided into three series or groups, corresponding with the three years professional study; and are taught in three consecutive Annual Courses of Lectures.

The Collegiate Year embraces a regular Annual Session for Students of SIX Months, and a Special Session of ONE Month for Practitioners and Graduates only.

THE REGULAR ANNUAL SESSION commences on the last Tuesday in September, and continues until the last Tuesday in March following, when the public commencement exercises are held.

THE SPECIAL COURSE FOR PRACTITIONERS commences on the Wednesday following the last Tuesday in March, and continues four weeks.

A READING AND RECITATION TERM, in connection with Clinical instruction will be arrange for those students who may wish to remain in the city. It will commence immediately after the cir of the annual term on the last Tuesday in March, and continue until June 1st.

For Lubricating the Valves and Cylinders of Steam Engines, by a visible feed. The "Pioneer" patent for a Sight Feed Lubricator of 1876. Re-issued with broad sweeping claims vesting the exclusive right to all the principal elements of a "Sight Feed" in the American.

The public are hereby notified to refrain from purchasing a Lubricator containing the above feature. Parties who are now using such devices can make reasonable settlement with us either by paying a license or taking off the Lubricator. The above are abstract claims of our re-issue allowed September 20th, 1881. Send for a copy of our claims.

STRAIGHT WOOD SCHOOL FURNITURE!

GREENFIELD, HANCOCK COUNTY, IND.

STRAIGHT WOOD SCHOOL DESKS,

Recitation Seats, Teachers' Desks and Trustees' Desks.

The Straight Wood Desk is made entirely of straight grained wood, no part being bent or cross-grained, and is handsomely ornamented with Walnut Rosettes and Tablets, beautiful in appearance and equal in style and finish to Parlor Furniture. It has a curved folding seat, and a strong, noiseless wrought iron hinge, and is put 'together with screws and bolts in the most substantial manner. For Strength, Durability, Comfort and Beauty it has no equal, and it is the cheapest first-class Desk in the market. Sample Desks furnished to parties who desire to purchase.

WM. KNIGHT, M. D., Demonstrator of Anatomy. G. S. JUNKERMAN, D. D. S., Demonstrator of Analytical Chemistry.

This Institution is a DENTAL COLLEGE IN THE STRICTEST SENSE. The property is owned by an Association of Dentists, numbering one hundred. The Faculty is composed of Practitioners of Dentistry, whose purpose it is to give a thorough course of instruction in the theory and practice of Dentistry.

The College Building was designed, erected, and is exclusively used for a Dental School. The reception, lecture, clinical and dissecting rooms, and mechanical laboratory are large, well lighted and admirably arranged for the purposes of dental education. Located in the center of one of our most populous cities, where there is no other Dental School, the supply of patients is abundant, and at times in excess of the requirements for clinical practice. The College Infirmary will be open every afternoon (except Sundays), during the session, thus affording the students ample opportunities to engage in actual practice under the direction of the Professors and Demonstrators.

Graduation.--The candidate must be twenty-one years of age. He must have attended two courses of lectures in a Dental or Medical College, the last of which must be in this institution. A reputable dentist, in actual practice five years, may be examined for the degree of D. D S., after attending one full course of lectures.

FEES.

Matriculation Fee (but once)	\$5	00
Professors' Tickets for the First Year, whether Junior or Senior	75	00
Professors' Tickets for the Second Year

COLLEGE OF MEDICINE AND SURGERY

MEMBER OF THE AMERICAN MEDICAL COLLEGE ASSOCIATION.

164 George St., Cincinnati, Ohio.

COLLEGE DISPENSARY.

The new Clinic building adjoining the College is complete in its arrangements. Here are spacious waiting rooms for patients, an excellent operating amphitheatre, and a well adapted lecture room for Gyræcological cases, and for special examinations.

More than one clinic is conducted at the same time, and students can pass from one clinic room to the other, and make personal inspection of, and receive practical instruction in, the examination and treatment of cases in the various departments.

During the course of the Session almost every variety of Medical and Surgical disease may be seen. Over Ten Thousand (10,000) patients are treated annually in the presence of the class. These Clinics are free to the Student of this College.

At the *Cincinnati Hospital* there will be two Clinical Lectures delivered daily during the entire Session. The Hospital is open to students of all Colleges on the same terms.

The Dissecting Room is perfectly arranged for the study of practical anatomy.

Good Board can be had at from \$3 to \$6 per week. Students arriving in the city can send their baggage directly to the College, where it will be safely cared for by the Janitor until they can secure boarding places.

Mayhew Business College,

CHAMBER OF COMMERCE, DETROIT.

SUCCESS IN BUSINESS, as in the mechanic arts, in the professions, and in the various departments of productive industry, REQUIRES PREPARATION. The preparation which every business man Needs, includes, among other things, a knowledge of Double Entry Book-keeping, of the nature and proper use of Business Papers, and of correct Business Practice, conforming to the provisions of law, and securing to each person his rights, while courteously yielding to all others their just dues. This knowledge may best be acquired in a well conducted Business Training School. Such is the Mayhew Business College Detroit, which might properly be called an

Actual Business College,

Established for the express purpose of giving to young men and women this very knowledge. The methods it employs are the best known among business educators. Its President—an experienced Practical Educator—is a Charter Member and First President of the

BUSINESS EDUCATORS' ASSOCIATION OF AMERICA,

Which is the only National Association of Business College Teachers in this country. This Association, through a committee raised for that purpose, four years ago (in 1878) conveyed to President Mayhew the following expression of appreciation of his services: "It is with the greatest pleasure that we welcome to the ranks of our Association the Hon. In Mayhew, LL. D., whose early labors in the cause of public school education, prominently as Superintendent of Public Instruction for the State of Michigan for several terms, were so efficient, and who later in life has so fittingly devoted his ripened abilities to the cause of business education, especially serving it as an author. We sincerely trust that time will deal with him propitiously, and reward him commensurately to his eminent labors,"

PHONOGRAPHIC AND TELEGRAPHIC DEPARTMENTS.

In order more fully to meet the increased requirements of business, this Collège has organized Departments in Phonography and Telegraphy, which are taught by experienced Reporters and Amanuenses, and by practical Operators, thus giving young men and women the opportunity of fitting themselves as accountants and for business; as correspondents, amanuenses and reporters; and as operators on the lines, and for the care and management of telegraph offices, and constituting its courses of study, taken together, the fullest and most complete of any Business Collège in Michigan, and unsurpassed in the country.

Libraries.

Polytechnic Society of Kentucky, organized December 16, 1876, and chartered by the Kentucky Legislature the 10th of April, 1878. This society holds as an express trust, for the Commonwealth, the property known as the Public Library Building, valued at \$280,000. The society conducts a free library, and gives a course of lectures on popular science, with illustrations and experiments, one night every week for ten months in the year. The society's library has above 40,000 volumes, of which 30,-000 belong to the circulating department. There are academies of medicine and surgery, art, geology and minerology, botany and natural his-tory, law, chemistry and physics, all in successful operation. Membership fees \$5 per annum for gentlemen, and \$3 for minors and ladies. Persons not members enjoy the use of the circulating library for \$3 a year. The large reading room is open free to the public from 9 A. M. until 10 P. M., except Sundays and general holidays. The business of the society is transacted by an executive committee, of which the president, secretary, and the Governor of Kentucky are mem-bers ex officio. The committee consists of Col. Bennet H. KENTUCKY SCHOOL OF MEDICINE,

AT LOUISVILLE, KY.

FOUNDED 1850.

Annual Session Eegins February 1st.

The Twenty-Seventh Annual Session will begin on February 1st, 1883, and continue until the last of June, thus embracing five full months. The Board of Regents eight years ago decided to hold the regular annual session in the spring and early summer months, thus furnishing to students the superior advantages of a full and systematic graduating course at this season so favorable for the pursuit of medical studies.

Clinical Advantages.

Clinical teaching is made a prominent and special feature of the course of instruction in this institution. In addition to the regular Clinical lectures in the Amphitheatre of the Louisville City Hospital upon General and Special Surgery, Practical Mediciuc, Obstetrics, and Diseases of Women and Children, the College Dispensary furnishes an infinite variety of clinical material which is thoroughly utilized for the benefit of the students of this institution. By the most complete arrangements, the members of the class are brought in direct contact with patients. In addition to the large number of medical and minor surgical clases here presented by the Faculty and Assistants, the following special departments are furnished with abundant illustrative cases: Skin and Veneral Diseases; Gynæcological and Obstetrical Cases; Children's Diseases; Diseases of the Eye, Ear and Throat.

Practical Advantages.

The Dissecting Room is fitted up with every convenience, and the Spring Season is most suitable for work in Practical Anatomy. During last session one hundred and seventy-five students were engaged in dissecting. The Practical, Chemical and Microscopical Laboratorics are fitted up with every convenience, the institution having imported last year, for the special use of its classes, a number of fine microscopes. Under competent instructers every facility is furnished in these departments. Practitioners and Advanced Students will find the facilities of this institution unsurpassed for the study of special and practical branches. Members of the Faculty are connected with the following institutions which will furnish valuable additions to special clinics: The Louisville City Hospital; the Kentucky Infirmary for Women and Children; the Hospital of Spints Mary and Elizabeth; the Louisville Eye and Ear Infirmary. THE ST. LOUIS STONEWARE CO.,

----MANUFACTURERS OF-----

GLAZEDO STONEWARE PIPE,

The Best Known Material

For Sewers, Aqueducts, Well Tubing and All Kinds of Underground Drains.

---ALSO---

HEAVY STONEWARE CULVERT PIPE,

Extensively Used for the Smaller Class of Railroad and Wagon Road Waterways.

The construction of a Pipe Culvert is a very simple matter, but should nevertheless be done with care.

The main thing is to bed the Pipes properly so as to give them a firm and uniform bearing at every point in their lower surface.

After bringing the bottom of the trench to the grade, cut out little depressions for the sockets, so that the body of the Pipes, when laid, will rest firmly on the ground.

In laying the pipes, commence at the outlet or lower side of the road, and place the pipes in position with sockets facing up grade, and pack and ram the filling firmly under and up to the centre line of the pipe as above described.

This is of the greatest importance and increases the strength of the culvert many fold by making available the full strength of the pipes.

The regular session will commence Oct. 1st, preceded by preliminary course during September.

The College building has recently been much enlarged and remodeled and is now

well adapted in all respects for medical teaching.

A large chemical laboratory, a well furnished histological laboratory and extensive dissecting rooms furnish excellent, facilities for practical study in these important branches.

CLINICAL STUDY.

At least two clinics are held each day in the college building, at which patients in all departments of medicine and surgery are treated, and students have opportunity to acquire practical knowledge of the various methods of examination and manipulation required in modern practice.

CLINICAL LECTURES are delivered daily at Cincinnati Hospital, near the college. DIDACTIC LECTURES are delivered by a complete corps of professors, who have ample resources for illustration of their lectures, in the extensive museums of the college. FEES-PROFESSORS' TICKETS, \$75.00. GRADUATION, \$25.00.
